USB Pair Device Drivers The following links are direct to drivers: 2017 Jun 7, 2430 AC It is a modified version of KeyGen developed by JetMouse Team. This new KeyGen is using Javascript to generate more efficient unique codes than KeyGen V1.5. It has two input fields. The first one is a 15-character unlock code for the maps that was generated by KeyGen V1.5. The second input field is for a GPS chip and it is the unlock code that enables you to unlock GPSS that were generated by any previous version of KeyGen. You can use the generated GPS chip unlock codes on any of your Garmin GPS devices. If you have a 1.5 Pro keygen (you cannot use the old 1.5 keygen) then you can use this to unlock the new 1.5 Pro (1.5.1) using a new GUI. If you have a 1.5 (non pro) keygen (you cannot use the old 1.5 keygen) then you can use this to unlock the new 1.5 (1.5.1) using a new GUI. This keygen requires you to be logged in. It is a 25-character unlock code. The rest is the GPS chip unlock code that was generated by KeyGen V1.5.
