It can also be a very safe activity provided you complete the required training to open up a new diving career. Scuba diving allows you to explore new areas of the ocean and to connect with some of the most amazing marine life. The course is to train you to know how to dive, but is also designed to teach you about your local environment and all the creatures that live in the ocean. You will be able to learn how to conduct a dive safely and to take all the necessary precautions to avoid any problems. The Scuba Diving course is open to all and will provide you with all the skills to complete a dive once you are certified. In addition to the compulsory 4-day Open Water Scuba Diving Course, we also offer the following courses, tailored to your individual needs. Rescue Diver Courses Military Diver Training Professional Diver Courses Dive Instructor Training Dive Master Courses Nitrox Courses Nitrox Courses Nitrox Courses are a common safety feature for dives conducted in marginal environmental conditions. With the oxygen boosting effect, nitrogen or gases can be added to the dive mix to increase the available oxygen at depth. This allows divers to safely increase the total amount of oxygen available at depth compared to a dive without nitrox. As nitrogen is heavier than oxygen and therefore displaces it. Training will be provided in our state of the art facility in Hastings where our instructors are skilled and have first-hand knowledge of how the equipment works and how to operate it safely. Our Training facilities offer a variety of training rooms including a fully equipped high-pressure chamber (decompression chamber) that allows you to train in the more extreme conditions found in the high-pressure environments. Regardless of your ability level, we will be able to
