We've got a passion for independence and fun!

As a parent, or grandparent, or therapist or teacher... there is no greater joy than seeing the excitement on the face of a child with a disability when they play with a toy on their own for the first time. They don't just have to be the bystander who looks... and wishes.... that they, too, could play. That's the magic of switch adapted toys. And as a therapist, I started this company so every person with a disability can have that feeling of success, independence and EXCITEMENT through the use of adapted equipment. We're here to help if you have questions about selecting the right switch, or right toy.. or even how to get them connected and working. Just send us a message and we'll get back with you.

"High five for independence!"

~Denise Bandl, M.S., CCC-SLP, ATP & staff

Did you know we offer a 30-day money back guarantee?
