## ENGINEERING DESIGN SERVICES

We offer our engineering consultancy services for design of Mechanical Utility System, Fire Fighting, Tank & HVAC. The service involves collection of data for mechanical utilities, feasibility study, assessment & Finalization of demand, preparation of design basis report, pipe sizing, making P&ID, layout & Isometric drawings, Freezing detail specification of capital equipments, Preparation of BOQ, Preparation of tender documents & making technical comparison.

"We put all our expertise, effort, skill, engineering knowledge & rich project experience to design a mechanical utility system which is economic, durable, reliable & futuristic."

**Design References** - Siemens DGEN Dahej Tank Design, Raymonds Vapi process cooling system, Gujrat glass utility piping, Essel propack (Wada)

We offer unmatched turnkey solutions from concept to commissioning of complete plant utility piping and Plumbing systems. We have extensive experience in compressed air, water, steam, thermic fluid, oil, gas & vacuum systems.

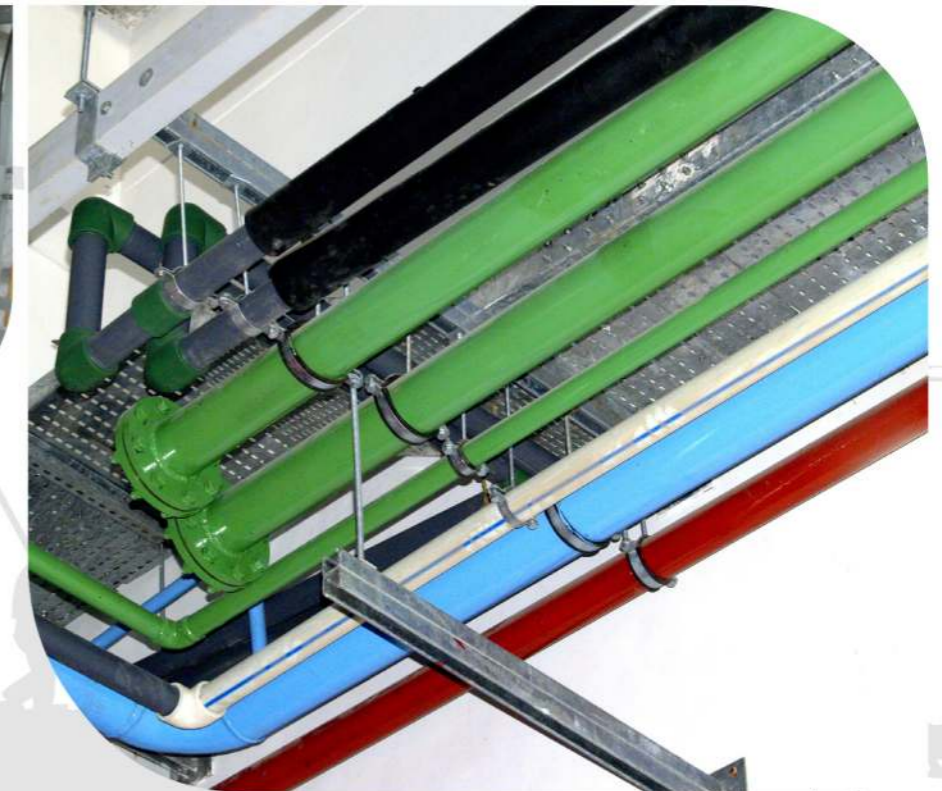

"With our expertise across industry segments, a large installation base, experienced manpower & cost effective solutions, we have established our self as the preferred piping contractor with prestigious multinationals"

**Project References** - Raymonds (Kolhapur), Godfrey Phillips ( Rabale ), Shahi Exports ( Shimoga ), Mercedes Benz (Chakn), Tata Steel (Tarapur), Ina Bearing (Talegaon)

## PLANT PIPING

## FIRE AUDIT SERVICES

We are certified by the Maharashtra Fire Department as a licensed agency to conduct Fire Audits. The fire safety audit is an examination of the buildings / structures to ascertain how the buildings are being managed regarding fire safety. In other words it is aimed to assess the building for compliance with the National Building Code of India, relevant Indian Standards and the legislations passed by various state governments and local bodies, on fire prevention and life safety measures. The main objective of Safety audit is to carry out a systematic, critical appraisal of all potential hazards involving personnel, plant services and operation method, and to ensure that safety and health systems fully satisfy the legal requirements.

Venkateshwara Hatcheries Pvt. Ltd.

Piramal Healthcare Ltd.

Our portfolio of FMS includes:

Mechanical Utility Services, Electrical Services, HVAC, Water Management & Plumbing, Energy Services, safety services, Waste Management, etc.

"We understand that it is beneficial for corporates to focus on their core competency & get the Utility systems managed through competent, reliable & professional Facility management agency such as EEPL"

Our Prestigious clients includes - Raymands, Atul Industries, Kamalavihar, MTV, Mahanagar Gas, Volkswagen India Pvt. Ltd., TMIPL.

We are also channel associates of **THERMAX LTD.**

BOILER BOP

This is one of our core competencies. We have designed & commissioned balance of plants for coal / oil / gas / wood / briquette fired boilers. We offer complete solution in **BOP designing**, project management, selection of key components, procurement, fabrication of **Pipe, Tank, Chimney**, IBR approval, commissioning of system to operation & maintenance of boiler.

"Long term association with leading Boiler manufactures, years of practical experience, a dedicated team of boiler engineers, cost effective solutions & **proven track record**, make us the preferred EPC vendor for Boiler BOP."

Volkswagen India

HVAC

Essel Propack (Wada)

For HVAC & process cooling system, we supply & install AHUs, Heat Exchangers, Chillers, Pumping Stations, Cooling Towers, Ducts, Piping and Insulation.

"Our promises are delivered & maintained. That is why our HVAC clients keep repeating us for their next project."

**Project Reference** - Procter & Gamble (Goa & Mandeep), Essel Propac (Baddi & Wada), Raymonds (Vapi & kolhapur)...

Our construction methodology for large capacity storage tanks is 'BOTTOM UP' - i.e. by jacking up the tanks, ensuring speedy & safe erection. We have constructed tanks up to 34 meter dia. of 10000 m3 with floating roof. Design code : API 650, API 620 & IS 803.

"Our tank construction division has unmatched range of machineries & equipments to ensure fast & safe tank construction in MS/SS. We have delivered impressive results under extremely difficult & challenging site conditions and client specifications."

## ABOUT US

**Elixir Engineering Pvt. Ltd. ( EEPL)** was established in 1997 as an Engineering, Procurement & Construction ( EPC ) company focusing on providing state of the art industrial utility systems. The company offer services for management, engineering, selection, procurement, fabrication, installation, operation & maintenance of industrial utility systems.

From complex Plant Piping systems to Structural Fabrication to Bulk Storage Tank to Boiler BOP to HVAC, Fire fighting systems & Facility Management, the company can offer solutions across a wide spectrum of Industries. In the past 15 years the company has established itself as the most preferred MECHANICAL UTILITY EPC Contractor across a wide range of industry segments because of it's commitment **Quality, Safety & Time.**

- The company also represents THERMAX LTD. for their Vapor absorption range of chillers.
- We are ISO 9001: 2008 certified & CRISIL SE1B rated.**
- We employ a team of 200 highly skilled engineers / Technicians and a contract work force of over 300-400 highly skilled workers.
- Our site mangement applies updated and approved engineering method statements and risk assesment (MSRA) for all critical activities.
- Our site safety and quality policy ensures safe & quality work execution.
- We employ state of art MIS through customised ERP.
